Summary

Final-semester Computer Programming and Analysis student at George Brown College with experience building web applications using HTML, CSS, JavaScript, and React. Familiar with Git and GitHub and comfortable working in team-based environments. Seeking a part-time Junior Developer or IT-related position with opportunity for full-time employment after graduation.

Projects & Skills

JavaScript Web Projects:

- Built small interactive web applications (calculator, product filtering, form validation, task lists) using **JavaScript**, **HTML**, **CSS**, and basic **React**.
- Implemented application logic, event handling, and basic UI state management using JavaScript and React.

Responsive Websites:

- Developed responsive websites using **HTML5**, **CSS3**, and **Flexbox**.
- Added basic interactivity with JavaScript and focused on clean, semantic structure.

Mobile App UI Design:

- Designed creative and user-friendly mobile layouts in **Figma** with focus on usability.
- Implemented designs in **Android Studio** when required under tight deadlines.

Basic Backend & API Work:

- Worked with Node.js for simple server-side coursework projects.
- Tested API endpoints using Postman and wrote basic SQL queries for data handling.

Work Experience

Barista, part-time March 2025 – current
High Park Espresso, Toronto, ON

- Quickly learned coffee preparation and café operations from scratch, demonstrating ability to onboard efficiently into new environments.
- Worked independently, managing multiple tasks with minimal supervision—showcasing self-management, accountability, and problem-solving skills.
- Collaborated with team members to ensure smooth daily operations, building trust through consistent performance and effective team communication.
- Maintained high quality and consistency standards, reflecting strong attention to detail, quality assurance, and pride in deliverables.
- Showed initiative and commitment by staying beyond shift end when needed to complete duties.
- Represented the café positively through polite and professional customer interaction.

Server Support, part-time August 2024 – March 2025
Pizzeria Libretto, Toronto, ON

- Provided friendly and professional customer service in a fast-paced environment.
- Communicated effectively with guests, servers, bartenders, and management to coordinate tasks and resolve issues.
- Demonstrated strong teamwork and contributed to service efficiency by supporting front-of-house staff with various tasks.
- Managed multiple responsibilities while maintaining accuracy and attention to detail, reflecting task prioritization, time management, and quality control.
- Followed established procedures and instructions consistently.
- Handled take-out and delivery orders and coordinated with delivery drivers, ensuring accuracy and timely handoff.
- Maintained clean and organized workspaces.
- Actively incorporated feedback to improve performance, demonstrating a growth mindset, openness to learning, and continuous improvement.
- Smart Serve Certified (August 2024).
